

## OBJECTIVE

Hey there! I'm an enthusiastic and recently graduated software/application developer. My journey through computer science has fueled my excitement for creating smart and easy-to-use solutions. I'm all about bringing a new perspective and my technical know-how to a dynamic development team. I'm on the lookout for an entry-level position where I can put my coding skills, knack for problem-solving, and teamwork attitude to work. My goal? Building software applications that people love to use and that help businesses thrive.
